SKIRTING LED is an aluminium skirting board profile provided with an integrated LED lighting system

Profile type: 911-4-led

- Description: SKIRTING LED
- Application: edge protection
- Length of the profile: 3,00 m, 1.50 m, 1 m
- Width of the profile: 17.5 mm
- Height of the profile: 43.5 mm
- Alloy of the profile: Aluminium 6063
- Anodized colours: silver, gold,
- Additional colours: aluminium polished
- Fixation: screwing, countersunk drilled holes 3,5 mm

SKIRTING LED is an aluminium skirting board profile provided with an integrated LED lighting system that generates a soft used light. SKIRTING LED is a skirting board in anodised aluminium with LED-strip lighting system. The light is distributed along the entire length of the profile through a diffuser element. It is possible to insert the dimmer in order to adjust the luminous intensity of the skirting board to decorate and light up the room.

The integration of LED technology with profiles allows to customize every space. They are available in two shades of light, warm and neutral, and are provided with dimmer. Moreover, they are easy to install and give the right brightness for every use, both for relax and work spaces.
